

Eleiko SVR Half Rack Platform

Small - Black

- ✓ **Prestera compatible**
- ✓ **Quieter drops**
- ✓ **Stable footing**
- ✓ **Integrated fit**

Designed for seamless integration into Prestera racks, Eleiko SVR Rack Platforms reduce sound and vibration within defined lifting stations. Engineered drop zones control impact and rebound, while a reinforced standing deck provides a stable, consistent lifting surface. The insert design preserves clean lines and efficient use of space. Compatible with Prestera Half Rack, Double Half Rack, and Power Rack configurations, platforms adapt to facility layouts through configurable fit and deck options.

Features

Sound control
SVR zones absorb drop impact, reducing sound and vibration.

Controlled bounce
Engineered drop zones manage rebound for predictable bar behaviour.

System flexibility
Configurable fit and deck options adapt to training needs and layouts.

Rack integration
Designed to integrate directly with Prestera strength systems.

Stable footing
Reinforced standing deck and optimal grip surface create a solid, confident base underfoot.
