

Precor Breakaway STM 837 Treadmill P31S

The Breakaway STM 837 is built for high-use fitness environments, merging industry-leading slat-belt comfort with the training versatility your members demand. It delivers both everyday running performance and advanced HIIT options — engineered to meet the rigorous needs of performance facilities, yet intuitive enough for every user.

Features

Smooth slat-belt feel

The durable rubber-and-aluminium slats cushion impact while maintaining responsiveness — enabling more natural, comfortable runs.

Effortless adjustability

Quick-access dials let users alter speed and incline without breaking stride — supporting dynamic training flows.

Push Mode for power & speed

Seamlessly switch into sled-style training for explosive acceleration, sprint bursts or strength-focused cardio sessions.

Operator-friendly service design

Built with an external “Active Status Light” and streamlined access panels to maximise uptime and minimise maintenance.
