

Eleiko Angled Dumbbell rack- Black

- ✓ Storage for 1-10 kg
- ✓ Ergonomic Cups
- ✓ Protective Liners

The Eleiko Vertical Dumbbell Rack holds smaller dumbbells ranging from 1-10 kg and comes in a straight or angled version to help optimise space and meet different facility needs. While optimized for Eleiko Evo Dumbbells, the design is compatible with Eleiko XF and Vulcano Dumbbells. PA liners protect equipment, and an ergonomic design makes racking and dumbbell handling easier, eliminating pinch hazards.

Features

Cohesive Design

Design and construction align with the Prestera Strength System for a cohesive facility design.

Protect Equipment

PA liner protects equipment, reduces pinching risk, and can be replaced as needed.

Storage Capacity

It holds up to 10 pairs of Evo Dumbbells ranging from 1 to 10 kg (2.5-20 lb).

Two Variants

A straight or angled version of the vertical storage is available to help optimize floor space; pick the one that fits your facility's needs.

Durable Construction

The vertical dumbbell storage racks feature a durable matte black textured powder coat finish.
