

# Eleiko Prestera Balance Ball Tree- Black

- $\checkmark$  Part of modular storage solution
- ✓ Prestera design language
- ✓ Four ball loops standard

The Eleiko Prestera Balance Ball Rack is a standard configuration in our modular storage solutions for holding balance balls of varying sizes. The ball loop placement and direction can be adjusted to meet space needs and personal preferences.

## Features

## Storage Capacity

It comes standard with four loops for holding balance balls; more can be added for additional storage.

## **Secure Footing**

Storage bases feature adjustable feet to create a solid base even if floors are not level.

#### **Design Versatility**

The design language mirrors Prestera Racks and Rigs for a cohesive facility design. The modular system is flexible, easy to reassemble, and scales as needs change.

## Adaptable Storage

Extra Prestera Medicine and Balance Ball Loops can be added to customise the rack to suit specific needs.
