

Eleiko Gym Floor Tile

Nordic Night

Create a quieter, more inviting free weight area with shock and sound absorbing floor tiles. Designed with a patented high-density wear layer on a molded base, these slip-resistant rubber tiles minimize the impact of dumbbell and weight drops for superior noise reduction, minimized vibration and bounce absorption. A collaboration between Ecore and Eleiko, the modular tiles are a durable flooring solution for weight rooms, functional fitness and training facilities.

Features

Designed For

Creating quieter free weight and functional fitness areas

Slip Resistant

Slip resistant surface for use in both wet and dry environments

Shock and sounds dampening

Reduces noise, dampen vibrations and minimizes bounce from dropped weights

Sturdy Construction

Durable 30 mm rubber ensures longevity and high performance

Specifications

Unit of measurement
Sold individually

Article code
ELT1-000153-QB

Height
30 mm / 1.18 in.

Weight
12 kg / 26.46 lbs

Warranty
15 years

Width
609.6 mm / 24 in.

Length
609.6 mm / 24 in.
