

# **Eleiko Gym Floor Tile**

## **Nordic Night**

Create a quieter, more inviting free weight area with shock and sound absorbing floor tiles. Designed with a patented high-density wear layer on a molded base, these slip-resistant rubber tiles minimize the impact of dumbbell and weight drops for superior noise reduction, minimized vibration and bounce absorption. A collaboration between Ecore and Eleiko, the modular tiles are a durable flooring solution for weight rooms, functional fitness and training facilities.

**Features** 

#### **Designed For**

Creating quieter free weight and functional fitness areas

### Slip Resistant

Slip resistant surface for use in both wet and dry environments

**Specifications** 

Unit of measurement Sold individually

Solu illulvidually

Warranty 15 years Article code ELT1-000153-QB

**Width** 609.6 mm / 24 in.

Shock and sounds dampening

Reduces noise, dampen vibrations and minimizes bounce from dropped weights

#### **Sturdy Construction**

Durable 30 mm rubber ensures longeivity and high performance

Height 30 mm / 1.18 in. **Weight** 12 kg / 26.46 lbs

**Length** 609.6 mm / 24 in.
