

# Eleiko Gym Floor Tile

**Nordic Night** 

Create a quieter, more inviting free weight area with shock and sound absorbing floor tiles. Designed with a patented high-density wear layer on a molded base, these slip-resistant rubber tiles minimize the impact of dumbbell and weight drops for superior noise reduction, minimized vibration and bounce absorption. A collaboration between Ecore and Eleiko, the modular tiles are a durable flooring solution for weight rooms, functional fitness and training facilities.

#### Features

Designed For

Creating quieter free weight and functional fitness areas

Slip Resistant Slip resistant surface for use in both wet and dry environments

## Specifications

Unit of measurement Sold individually

Warranty 15 years Article code ELT1-000153-QB

**Width** 609.6 mm / 24 in.

### Shock and sounds dampening

Reduces noise, dampen vibrations and minimizes bounce from dropped weights

### **Sturdy Construction**

Durable 30 mm rubber ensures longeivity and high performance

**Height** 30 mm / 1.18 in. **Weight** 12 kg / 26.46 lbs

**Length** 609.6 mm / 24 in.
