Platform insert fits seamlessly with both Classic Half Rack and the XF Half Rack

Knock Out Noise

Drop zone rubber specifically designed to further enhance platform performance and significantly improve durability

Secure Foot Position

Lift with confidence knowing your feet wont slip

Please Drop the Weights

SVR Platforms reduce noise, dampen vibration and minimise bounce, creating opportunities for facilities

The Eleiko Classic SVR insert platform is designed to seamlessly integrate with the Eleiko Classic and XF Half Racks. It is a bolt down insert platform that features our unique SVR technology to reduce noise and vibration while minimizing barbell bounce in the drop zone. While the same materials and technology, this platform is designed with square tubing to integrate seamlessly with the racks. The lifting deck is finished with a durable laminate top that provides optimal grip for tough training sessions and will stand up to high volume gym usage.
