Eleiko Powerlifting Belt, Black, XXL

- ✓ **Stainless steel buckle**
- ✓ **Made in Sweden**
- ✓ **Genuine leather**

IPF-certified and crafted in Sweden, the Eleiko Powerlifting Belt is made from four layers of leather for optimal support and durability. The 12 mm (+/- 1 mm) thick belt is 10 cm wide across the back with a slight taper towards the front, providing full support while lifting and making the belt easier to buckle and thread through the loop. The two pronged quick-release corrosion-resistant stainless-steel buckle ensures a secure, comfortable fit and easy fastening and adjustment.

Features

Range of sizes

Available in six sizes so lifters can tailor the fit best suited to your lifting needs. The dimensions show the length range for each size when set to the first and last holes. Follow the sizing and measurement guide to help select the correct size.

Optimal support

Four layers of leather are bonded and double stitched to form 12 mm thickness for the best support for even the heaviest of lifts.

Made in Sweden

Crafted in Sweden from four layers of bonded leather to ensure long-lasting performance. From the durable vegetable-tanned leather on the outside that ages well to soft suede finish on the inside of the belt, each layer works together to deliver optimal support and comfort over a lifetime of lifting.

Eleiko details

The Eleiko Powerlifting Belt features double stitched edge seam, an embossed Eleiko logo at the back of the belt, two-pronged stainless-steel buckle with an Eleiko logo and Raise the Bar tagline embossed in the belt loop.
