

Loumet Fitness Ball Pro

75cm

Durability and performance are the focus of Loumet's manufacturing, making the Loumet PRO ball the safest and most reliable fitness ball on the world market today. Loumet's hands on production ethos and manufacturing protocol provides a level of quality control & assurance unique to fitness ball manufacturing. Every ball is inflated and inspected prior to packaging and each fitness ball is individually marked with a batch lot so as to monitor production. The production and testing systems work in unison allowing Loumet to continually evaluate material performance & ensure product consistency, significantly reducing the risk of fitness ball failure. Loumet fitness balls are manufactured specifically for professional and high use environments.
