

Eleiko Evo Dumbbell Set

Rotating, 22-40 kg

- ✓ Smooth Rotating
- ✓ Multi-sided head design
- ✓ Stainless Steel Grip

Features

Designed For

Eleiko Evo Dumbbells are designed for free weight strength and functional training and are particularly well suited for explosive movements such as dumbbell snatches.

Refined Knurling

Durable stainless steel and refined knurling ensure a secure, comfortable grip.

User Friendly

A multi-sided head design, sloped head shape, embossed weight markings, and well-spaced increments deliver performance that will appeal to lifters and facility owners alike.

Robust Design

Durable polyurethane minimises signs of wear and keeps dumbbells looking new year after year.
