

Eleiko XF 80 Adjustable Handles (Pair)

Black

Attach handles to any XF 80 Rig or Rack for versatile and customisable upper body training. The swivel handles can be easily and independently adjusted 180 degrees in 22.5-degree increments allowing users to find the pull up positions best suited to their comfort and training needs. The unique spherical bearing construction means the handle position and angle are set by the user, the handles also feature knurling for optimal grip.
